

INTEGRATED QUOTE & LEASE MANAGEMENT SOFTWARE
FROM INTERNATIONAL DECISION SYSTEMS®

Automate Your Entire Business Cycle for Greater Productivity and Profit

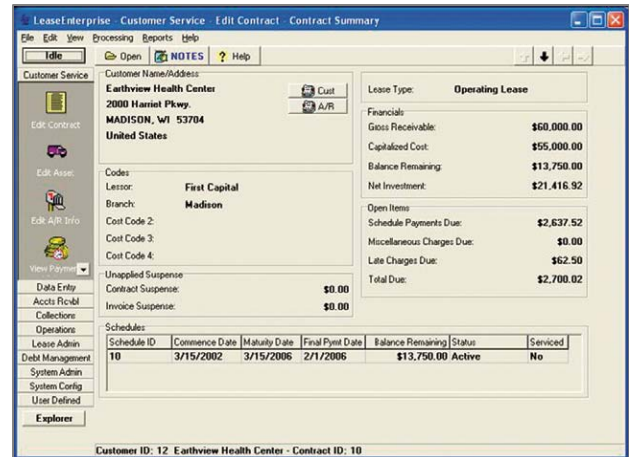

Increase Your Responsiveness to Opportunity with InfoAnalysis®

Do your current processes for generating quotes and proposals help you stay on top of all your opportunities? Would faster, easier proposal generation, leading seamlessly to automated tracking of all potential deals, help you capture more new business?

With *InfoAnalysis*, you can quickly and easily:

- Price simple financing deals, or create and control multiple scenarios for more complex ones, including finance leases, conditional sales, and even operating leases.
- Generate professional quote letters, proposals, or other documents through automated merges to Microsoft™ Word.
- Save all quotes in the same system for fast, easy modification upon customer demand, plus one click access to your quoting history for each customer.
- Pull customer data from your contact management system, and feed data to LeaseEnterprise® to streamline your whole process of originating business.

Manage Your Portfolio More Efficiently with LeaseEnterprise

International Decision Systems has leveraged more than two decades of real-world experience with market-leading *InfoLease*® software in creating this simple yet powerful solution for managing your growing finance portfolio. *LeaseEnterprise* is a self-contained package that runs reliably and predictably, with minimal need for technical intervention.

With *LeaseEnterprise*, you can:

- Service your lease portfolio from booking through termination- supporting your billing, accounting payment collection and customer servicing needs.
- Accurately meet accounting requirements for a wide range of product types, payment structures, and asset types, including both vehicles and equipment.
- Easily generate any of more than 140 standard Reports (or your own custom reports) to streamline your accounting and reconciliation processes.
- Set up and book new contracts easily and accurately via a direct feed from *InfoAnalysis*, saving time and eliminating re-keying errors.
