

RAPPORT® LOAN PROCESSING SOFTWARE  
FROM INTERNATIONAL DECISION SYSTEMS®

Connects to your core servicing system  
via *HostBridge* Connectivity solutions from CCMC

## Straight Through Processing, all the way to your core servicing system, eliminates the problems of re-keying

### Speed, Control and Productivity from Loan Processing to Servicing

*Rapport* from International Decision Systems, Inc streamlines the loan process from initial application, through credit evaluation, underwriting and documentation. *HostBridge* streamlines the flow of customer information from your *Rapport* system directly into your servicing system, making commercial and business lending fast, solid, and efficient. Is boarding the loan a chore that is fraught with manual effort, delay and errors? Could you benefit from a tool that enables you to create a more dependable, orderly workflow?

With *Rapport* and *HostBridge*, you can:

- Create a fast and easy boarding step by eliminating the need to re-key loan and customer data.
- Ensure a compliant boarding process by eliminating the errors and audit issues that result from multiple points of manual data entry.
- Ensure efficient and accurate data transfer for every loan transaction.
- Dramatically increase your capacity to board loans without adding staff.

### Eliminate the risk of multiple sets of data

*HostBridge* imports client demographic and account data into *Rapport*. No more searching the host for information. No more re-keying the information once you find it.

With *Rapport* and *HostBridge*, you can:

- Save time searching for and re-keying information with automated import on request.
- Reduce risk by preventing the errors inherent in manual searches and manual re-keying.
- Enhance service levels by making current account data available instantly.
