

InfoLease®

Your Market-Leading Solution for Stability and Growth

The foundation is rock-solid, yet the extensibility, flexibility for your business, and possibilities for growth are nearly infinite. This defines a great software solution investment, and it perfectly describes InfoLease® from International Decision Systems.

Hundreds of equipment finance companies worldwide, from the executive level to the everyday user, count on InfoLease to deliver and support:

- ◆ Streamlined, integrated end-to-end lease/loan accounting processes;
- ◆ Efficient assembly of critical, real-time decisioning information from a full range of existing applications and resources;
- ◆ Scalability for response to changing business needs and constant improvement in operating efficiency; and
- ◆ The absolute system dependability essential to staff productivity and customer satisfaction.

Delivering Total Confidence

More than any other equipment finance solution, InfoLease enables efficient lease/loan portfolio management—in every respect critical to your business. As IDS continues to innovate, introducing additional solutions to make you more efficient and profitable, development and support for InfoLease remains a top priority.

“We started with a single line of business using InfoLease. In 2006, we’ll complete the consolidation and conversion of our \$30 billion equipment leasing portfolios into InfoLease. It’s been a stable platform and we have complete confidence in its reliability and control capabilities.”

— **Bob Plante,**
Executive Vice President, Chief Information Officer,
Reflecting on CIT’s decision to convert all of their equipment leasing portfolios to InfoLease to aid with control and compliance for Sarbanes-Oxley.
