

RAPPORT[®] ORIGINATION SOFTWARE
FROM INTERNATIONAL DECISION SYSTEMS[®]

Deliver on Your Promise to Partners, with Faster Processing and Better Communication

Strengthen and Support Your Vendor and Dealer Partnerships

Does your current origination system support your drive to turn around transactions in hours or minutes—rather than days? Can you quickly acknowledge applications, assemble all relevant information, apply your policies, make decisions, and produce documents?

Automate Your Workflows and Business Rules, Maximizing Control Across All Channels

Rapport[®] is the comprehensive origination solution that synchronizes your operations – and extends streamlined processes across your vendor/dealer network. With this system integrated seamlessly to LeaseEnterprise[®], InfoLease[®], ProFinia[™], or another back-office system, you ensure full data integrity and visibility throughout your entire business.

Now you can offer your partners:

- A web based origination interface configured to meet their unique requirements.
- Direct online access enabling them to view transaction status, print accurate finance documents, and complete many processing steps on their own.
- The fast credit decisions they demand to better service customers and win more deals!
- Greater capacity to make more deals, through end-to-end automation and relief from time-consuming manual procedures.

- Deliver greater value in your partner relationships, through streamlined origination and faster, higher quality service.
- Increase profit and reduce risk by making better, higher-quality information available to all your decision-makers.
- Improve overall operating efficiency and simplify compliance through better system integration and data reliability.
- Free valuable staff resources from manual tasks, enabling them to focus on revenue-generating activities.
