

Business Consulting – Business Process Review

In today's commercial finance environment, potential efficiency gains go unnoticed or unimplemented due to the pace of daily life and the seemingly lack of time to step back to optimize the time invested in these operations.

Our Business Process Review assessment service combines a comprehensive, conclusive audit of operations. The review includes observation of commercial finance software in use and any manual procedures plus an overall review of business processes to analyze the efficiency of your current operations and suggest ideas to improve your efficiencies and maximize your investment.

Getting Started:

At the outset of the project you'll provide:

- Business process documentation
- Workflow diagrams
- Business growth plans and product offerings
- Details of areas in obvious need of efficiency improvements

Business Process Review:

International Decision Systems will execute the business process review with two consultants trained in the use and optimization of commercial finance portfolio management and origination. At the conclusion, you can expect:

- Detailed report of potential efficiency gains as a result of internal process changes
- Detailed report of potential efficiency gains possible with product enhancement services or module additions

For more information on a Business Process Review by International Decision Systems, visit idsgrp.com or call 1-866-465-9393 today.
