

FACTORING SOLUTION

DRIVE GROWTH WITH A BEST-IN-CLASS SOLUTION

THE POWER TO MITIGATE RISK AND DRIVE GROWTH

Financial firms looking to offer factoring solutions need technology that provides the right level of flexibility when trying to identify and mitigate risk. You also need a feature-rich solution that enables efficient management, calculation, and collection of purchased receivables. That's why Solifi provides the industry's premier factoring software integrated with our expanding suite of secured finance technologies. Our robust software provides factors of all sizes with access to best-in-class technology for recourse and non-recourse factoring.

KEY ATTRIBUTES

✓ **PROVEN SOFTWARE**

Recourse and non-recourse software based on proven technology (formerly The Stucky™ Factoring Software from IDS and William Stucky & Associates).

✓ **CONFIGURATION FLEXIBILITY**

Supports legacy Factoring installations, and allows you to assign internal and external users appropriate levels of program and data access.

✓ **REAL-TIME INSIGHTS**

Integrates and analyzes real-time data to provide you with insights you need to control risk and make necessary real-time adjustments.

✓ **AUTOMATED ALERTS**

Improves operational efficiency with user-assigned work queues when balances, trends, and credit-limit issues require prompt attention.

✓ **AUTOMATED PROCESSES**

Enables managers to monitor productivity and resolution of unprocessed and exception items through dynamic workflows.

RELATED SOLIFI SOLUTIONS

FACTORING PORTAL

An online factoring portal — available as a desktop or mobile application — allows you to post invoices, submit credit requests, retrieve daily and monthly reports, track the status of customer payments, view ineligible details and verify available customer credit limits.

Within Solifi Factoring, the lender can offer lines of credit and collateral management of several types of assets, allowing them to competitively offer complex working capital loan proposals.

SOLIFI SaaS

We're creating a best-in-class cloud platform for a full range of secured finance applications, including equipment asset finance, automotive finance, factoring, and asset-based lending. Offerings include both true software-as-a-service (SaaS) solutions and managed-service options.

DRIVING SUCCESS IN FACTORING PROGRAMS WORLDWIDE

Our recourse and non-recourse factoring software are the best-selling solutions worldwide.

Discover what they can do for your secured finance operations.

- ✓ Clients & customers in 195 countries
- ✓ Support for all currencies worldwide
- ✓ 600,000+ customer relationships
- ✓ 1.875 million credit relationships
- ✓ \$48 billion in annual factored volume
- ✓ 17 million invoices & 4,500 clients annually
- ✓ \$9.25 billion in accounts receivable
- ✓ \$3B in outstanding loans

RECOURSE FACTORING

IDENTIFY TOP-TIER CLIENTS AND WIN THEIR BUSINESS

Building a profitable factoring portfolio requires intelligent and responsive technology that allows you to provide customers and prospects with fast access to cash, a streamlined approval process, and competitive rates. The Solifi Factoring Software offers a best-in-class platform for driving growth, improving operational efficiency, and earning client loyalty.

Our platform includes advanced algorithms that forecast the credit risk of your accounts receivable portfolio so you are in control. This built-in intelligence makes it easier for you to monitor risk and mitigate losses due to debtor issues, such as bankruptcy.

This solution also improves operational efficiency with automated alerts when balances, trends, and credit-limit issues require attention. Invoice data can be automatically uploaded, then quickly verified, approved, balanced, and processed. You can also access tools to enforce credit limits, monitor changes in credit, and automate notifications for credit updates.

NON-RECOURSE FACTORING

MITIGATE RISK, MAXIMIZE MARGINS AND GAIN INSIGHTS

Importers, exporters, manufacturers, and other borrowers are increasingly exploring non-recourse factoring as a way to secure fast access to funding and to share credit risks with their lenders. This presents a profitable growth opportunity for lenders proficient at managing the specific risks of non-recourse factoring.

Non-Recourse Factoring Software from Solifi gives you the tools you need to mitigate risk, expedite deals, and manage the profitability of your portfolio. Your team can calculate and recalculate debtor risk, manage invoices, monitor delinquent accounts, determine the best course of action, and quickly take steps to protect your margins.

Our technology also allows borrowers to request funding using invoices, inventory equipment, or other assets as collateral. This gives you the option of expanding your portfolio and driving new revenue.
