

NEXT GENERATION WHOLESALE FINANCE SOFTWARE

The most comprehensive inventory finance and loan administration solution for finance companies, suppliers and dealers.

A more dealer-intuitive, self-service approach, complete with scalable out-of-the-box functionality that's industry-proven and fast to implement.

Whether you call it wholesale finance, distribution finance, floorplanning or bailment, companies are seeking better ways to fund inventory across the supply chain. IDS Wholesale Finance end-to-end solution, based on proven White Clarke Group's CALMS technology, is that better way.

We have a wealth of experience supporting wholesale finance businesses in more than 20 countries.

- ✓ **Universal**—the stock finance and loan administration solution that is industry proven across virtually all types of assets—Automotive, Marine, Technology, Trucks, Construction Equipment, Power Sports, Recreational Vehicles, Consumer Products and Spare Parts
- ✓ **Flexible**—allowing for rapid change as you acquire new portfolios, introduce new product lines or implement new finance products and services
- ✓ **Industry-wide application**—delivering bottom line benefits to manufacturers, dealers, distributors and suppliers
- ✓ **Future-proof**—current technology, with a well-defined road map to meet the evolving demands of a dynamic market
- ✓ **Scalable**—helping new entrants to grow easily and securely from early volume to high volume portfolios
- ✓ **International**—supports multiple countries and different trading cultures
- ✓ **Out-of-the-box functionality**—that's industry proven and fast to implement
- ✓ **Easy to use**—minimizing training and increasing productivity
- ✓ **No-touch processing**—improving efficiency, where only exceptions require attention
- ✓ **Full dealer self-serve capability**—putting the dealer in control, around the clock
- ✓ **Integrated stock auditing**—with automated result processing
- ✓ **Workflow-driven**—to mirror the way your company works
- ✓ **Fully web-enabled**—for speedy implementation, locally or globally, requiring minimal up-front investment in infrastructure

IDS Wholesale platform delivers powerful business benefits

With a single, cohesive view of your business and 'one call' capability to manage decisions, IDS enables sophisticated risk management and full credit line flexibility. It provides a unique self-correcting environment along with customer self-serve capability where dealers and suppliers can run their own portfolios.

IDS helps improve operational efficiency, while exercising better control—linking partners and their applications, all along the supply chain.

For the finance company

IDS delivers web-based, speedy customer service and fast response times as well as flexibility and compliance, with the tightest levels of credit control all in a single solution that is incredibly cost effective. Above all, IDS offers true supply chain integration, linking companies, customers and partners from factory to dealer and end-customer.

For the dealer

White Clarke Group's floorplanning solution frees up dealers to manage their own destiny—initiating and concluding finance, making enquiries and managing their own floorplan funding over the web. All partners are linked, cementing the business relationship.

For the manufacturer

Web-based flexibility gives manufacturers the ability to create individual incentives to support dealer promotional campaigns, moving more stock into the supply chain. Ease of integration makes IDS the perfect technical solution for captive finance operations.

Advanced technology delivered the way you want it.

IDS Wholesale Floorplanning is available as an in-house solution or hosted in a worldclass, SSAE16 & PCI compliant datacenter.

IDS offers all the benefits of modern technology and software design – Oracle powered database, Java front-end, via an Internet deployment model.

IDS Wholesale Finance sits right at the heart of your operation, delivering powerful business benefits.

It is a proven enterprise-class solution delivered and supported by our team of inventory finance and technology experts.
